FREE MONEY #1

I am sure you have heard of Google Adwords (a multi billion dollar business) and how advertises pay Google when someone clicks on their Adword ads. So whenever you click on a Google ad, the person who placed the ad pays Google so much per click for directing traffic to their web site.

We all know that Google makes billions every year for their Adwords service because it is so popular! It's the best way for advertisers to get top placement on their search engine. It lets them by-pass all the complications of trying to get top search results.

However, Google is not the only one raking in huge profits these days of pay per click advertising. There are many others... But ONE does it some what different than all the rest and is in need of millions of new eye balls to satisfy their advertisers.

Now with this program whenever you click on an ad... you get paid for going to the advertiser's web site... not someone else! And you can even earn more money when others click on ads!

Here is how it works. First you will need to add a tool bar to your Internet browser. It will look a lot like your Yahoo or Google toolbar, but this one will make you money every time you click on it and it is completely virus and pop up free.

When you're ready to earn some money you just click on the ADS button on the tool bar and view a couple of ads that interest you and you earn free money.

Now here's where it starts to get really exciting. All you have to do is "*share*" this program with 5 plus friends and family, or anyone who you feel would like some extra money, but don't want to pay anything to do it.

The reason we say "*share*" is because you are not buying or selling anything... just showing people how they can start making some real money online for Free.

Now You're Probably Wondering... How Much Can I Really Make With This Program? Well, Take A Look At The Examples Below!!

If you share this FREE program with just 5 people and they share it with 5 people and so on..... And each person only clicks on 2 ads a day... See the income example below as to what will happen when everyone does the same.

Can you see how fast the cash can build up with a little help from your friends! And don't forget you will be getting this money every month. And this is 100% Completely FREE Money.

The key to this program is to get everyone to share this with a least 5 people and to click on at least 2 ads a day, more is better. Thats it, before you know it you and your friends will be on your way to earning

an unlimited monthly income for as long as you want.. for a few minutes each day. Not bad, when you consider the money that can be made and this is just one income stream.

However, if you do not plan to share this with at least 5 people or click on at least 2 ads per day, this may not be for you. The only way this works is if everyone follows this to the letter and does their part.

Now to make this as simple as for everyone, you will be able to brand this free e-book with all your own links right from your browser. This way everyone can share this free e-book and make a lot of money doing it. If you can copy and paste your affiliate IDs to a simple form in your browser, you can do this.

Are you beginning to see how this makes the whole process of sharing this e-book and earning money so much easier. *** More on this e-book and other marketing will be explained later *** because we are not done yet.

You need to wrap your mind around the big picture here....because this is not about the small amount you will earn from your ad views each month but what you and your friends will earn when everyone does the same. .

The point is... you and your downline could realistically earn \$3,514 a month in the first 5 levels. with just this one program. What do you think would happen if you referred 10.. Your income would actually double. Remember we are not talking about a lot time here and you are not working alone. You may be surprised how fast a downline could grow as you refer more and more friends.

And when you consider the small number of friends needed for the above downline scenario it doesn't even touch on the huge population who need this. Not to mention, many are following right behind you earning nice incomes too.

Seriously, this is not bad for a few minutes work each day And thats just for viewing a few ads each day. The big incentive here is the huge income you could earn by sharing this with as many as you can.

You can also earn 3 other ways, when you use the Bar to Search, view the Classified ads and B-mail. You are supplied with a b-mail account automatically when you sign up. It will look a lot like the one you use to sign up with... If used my name@yahoo.com then your e-mail would be my name@b-mail.com... You can use this for important mail that you might like to access from the browser Bar.

Online Advertising has become a multi-billion dollar market and it continues to grow every year because advertises are known to go where they get the best bang for the buck. Get The Bar will grow in popularity as it grows in eyeballs.

Advertisers have always spent billions every year off line... But they are finding the Internet gives them even better response for their advertising dollar even over TV, radio, billboard etc... because they can advertise for a fraction of the cost compared to off line advertising. People actually visit and purchase from their web site or get more information, which truly lets the advertisers interact with their audience better.

Unlike the broadcasting media where people are mainly interested in the programs and get up to do other things when the commercials come on. You know, like it was Intermission Time!

Not much different with radio either! You listen to the music, news, or talk show gossip... but when the commercials come on your mind is on other things..or talking to others and the advertisers know this because they are human too!

Are you beginning see the potential this offers every serious minded person looking for a easy way to earn full time pay for a few minutes

work. Think what this will mean for the millions who are out-of-work, work-at-home, retired and all the others needing extra income.

The need for this is so enormous and this is one the easiest ways there is to earn money online... because people are being paid to view the advertisements and the advertises get what they want because everyone attention is focused on their advertising where it's almost impossible not to notice something of interest.

This is just one way to earn. It gets a lot better so read on to see how profitable this really is. You can always return here later to join.

Here is a second great way to make easy free money similar to that above only with a lot less effort. And you get **\$10 FREE** just for signing up. Now you're probably wondering, gee, how much easier can this get!

Well, this business only requires you to read just one e-mail a week, click on a few links and you can earn almost the same kind of income mentioned above. And like above, you are paid to visit a few advertiser links once a week. Would you like to see how much money can be made? [Click here](#) to visit the site and play with the calculator there. As you will see, even with a couple of referrals you can make a lot of money just for a few minutes work each week. As you can see, the potential income is almost unlimited. And because this is free, it's easy to get sign ups.

Now when you combine this with the above free money source, it's easy to see you can earn some pretty serious income for a few minutes work. And all you need to do is read a few ads and refer a few people. Which is not hard to do with this free brand able e-book.

If you really want to make a lot of money with MLM programs, whether free or pay to join, you need to get involved in more than just one program. The reason is, most people never excel past the first few levels of any MLM program and why so many fail or get turned off by MLM. This is not necessarily the programs fault. It's just that most people find it differ cult to market and refer a lot of people or build the kind of downline needed to make real serious money that most MLM programs promise.

So, the best solution to this is. you need a system where you can work and promote a number of programs at the same time. This way, you get to earn so much more money right from the start

Imagine for a minute you referred 3 people and built a downline to 3 levels. in just these 2 programs alone! You could be earning \$140.00 a month. Okay, that may not sound like much right now!

But what if you had 10 programs like this that you could promote altogether. You could be making \$720.00 a month without working any harder.

Now think what would happen if you joined 15, 20 or more programs. Go ahead, make the calculations you'll be amazed by the figures. And just think how amazed others will be when you show them how to do the same with this free e-book!

Thats the beauty to this, you place a few free ads, give away a free e-book and your downline will build automatically. No one

needs to buy or sell anything. You don't need to pay any fees or re-join any programs to use this system and there are no surprises down the line like in other free money making systems. And since this is free, it puts in reach of everyone. Those who choose not to do this, are either already rich, not interested in making money, or would rather work harder for their money.

The whole purpose for this free money e-book is... to bring people and free money sources together in one place... to make it as easy as possible for everyone to follow each other and make some real serious money.

Even if you had bad experiences with MLM in the past Now it's possible to beat MLM failure with a system like this that lets you profit more up front. Rather than wait and see what you might make at the higher levels. When people fully understand the power behind a multi-income system their fears of failure will be almost forgotten. Especially when they begin to experience multi pay checks for so little effort.

The best part is, when people join a multi income system, they usually try to join all the programs they can. This way they avoid passing up commission to their upline. So it stands to reason, no one would think of passing up free income, other than for a condition.

We know most systems do impose one condition or another (like forcing people to re-join a program under their sponsor). If you are already a member in any program here, you can use your current affiliate ID's. And you are never under pressure to join any program. Further more, you will have an opportunity to promote some of your other programs through another Free Money source below.

Remember, the only requirement for this program is, to read one e-mail a week and click on a few links. You are never obligated to the advertises for anything and it takes less than 5 minutes to do

Here is a third way to earn some free instant money. This can also be a real motivator for getting new referrals not to mention boost your income at the start... where everyone is earning the least amount of money and need it most. This is how you earn the **FREE \$25** and **FREE \$10** payments mentioned at the top of this free e-book... and this is even easier than the two income sources above. Once you open a free account... your done. You will be making free money over and over just from those who join you...

Almost everyone uses a payment processor to send and receive money online or to sell and pay for purchases. Well, here is a free payment processor service that will pay you \$25 free up front, just for opening a free account and they will also pay you \$10 for referrals.

Now, this gives you three ways to earn FREE MONEY doing nothing more than use the free services and sharing them with others. This will give you instant cash and monthly earnings for just a few minutes work each month.

Imagine if Paypal offered this when it first started and you were in at the beginning. Thats over 35 million members and they did it without a program like this! And this Pay Processor is backed by a real bank.

This is a great service for anyone who sells products (like auctions) or need to send or receive money online. By using this service as

your preferred payment processor you can benefit from those without an account. .

But for now, you are paid to spread the word and help make this service as popular as paypal. See how easy it is to earn money when you have a simple free e-book to do all the explaining for you. You are now up to 3 income streams that only requires about 5 or 6 minutes of your time each day. Neat huh? And we're not done yet! Keep reading.

Here is another way to earn free money? We know to be successful online you need a web site. And to do that, you need a web hosting service. Well, here is a free web hosting service that can serve all your needs and you can earn money by referring others. There's no work here, people will just join you automatically.

You can create your own web sites, use it to market anything with a free sub domain on this web hosting service. Or they will host free any domain name you currently own or plan to register. This is a totally free service with very nice features that you can use to do anything you want.

This is how you earn income. There are times when people feel a need to expand their business and this is where you can earn money when someone decides to upgrade or whenever you refer so many free members. But for all practical purposes, the free account is plenty big enough for most. So, if nothing else, you will have a free web hosting service to market what you want for free.

It's important to know that you need to get at least 12 visitors a month to your site to keep it active. That should prove to be no problem if you use the free traffic exchange programs in the following source to do some of your promoting.

Note: After you sign up, be sure to sign up for a free affiliate account too, so you can get paid for referring others, incase they decide to upgrade later. You will also need this affiliate account link in order to refer new members to this hosting service and for the link in this e-book. And we're not done yet! So keep reading!

Saving the best for last! This Downline Builder site is how you can earn lots more free money. It acts as a live gateway and extends the Free Money e-Book sources. Here you the ability to create more income streams whenever you want and have your downline follow. It also gives your referrals access to some of your own programs..

Here is how it works. All the programs in this free money e-book are also a part of this site. So when you sign up for the programs above you can also use the same ID's when you join this site. Which gives everyone free access to so many more free and low cost money sources to build even more income.

When people access the link below, they can access the sites programs page where it will list all the programs supported by this Free Money e-Book plus many more including some of your own.

Now as new programs become available they will be listed on this site with you as their sponsor for all the programs you support. This way no one is ever limited to just the free income sources in this Free Money e-Book.

This free e-book is just an introduction and starting point, so people can actually see the kind of money that can be made with a free money making system in place.

This downline builder site lets you see first hand what each program is about. So you and all your referrals can get right down to earning money. And not spend all your time chasing pretty ads designed to grab your e-mail address and phone number, only to find out, it was not what you expected or wanted.

If money is what you want, than money is what you get with a free system like this. You can cherry pick your income streams without pressure or risk. The system will do all the work of tracking your downline so you can concentrate on making money.

This Downline Builder gives you a base of operation so you can bring your downline with you into new programs without any additional work. When you refer a person, you need to think of all the programs they will follow you in and not as a one short deal. Because each referral you get could easily be worth its weight in gold for years to come.

However, this site is not just about money! It also provides traffic sources and marketing tools to help you build your business. To build a downline in most traffic programs you need to promote them. That takes extra work, but with this downline builder system, the work is almost null. Because, while you are busy making money, you can also be earning traffic or building a list

How you use your traffic is up to you. But if you use it to promote the Free Money e-Book you have so much more to gain. First, your referrals are worth so much more to you, with this system. Second,

more of your programs are being promoted. Third, you will be building your downline in the traffic programs that will equate into more and more free traffic.

With this downline builder, you will have a real money making system in place:

1. YOU can earn unlimited amounts of money on autopilot.
2. YOU can earn unlimited amounts of traffic on autopilot.
3. YOU or anyone can do regardless of financial status.
4. YOU don't need to re-join programs or down lines.
5. YOU or anyone can do in less than 10 minutes a day.
6. YOU can share some of your own programs.
7. YOU don't need to buy or sell anything.
8. YOU don't need to join programs blindly.
9. YOU can view programs before you give out your information..
10. YOU don't need to worry about surprises or squeeze offers.

Most people are so overwhelmed with all the money making systems and opportunities online these days. That they spend far too much time researching them than making money. It seems, everyone and their mother has the answer to your dreams and for a price they will give you the answer, even when its free! Wouldn't it be a breathe of fresh air if you could just sit back and make money.

When you join this site you will have endless leverage to build all the income streams you want. No more chasing opportunities. You can actually view and cherry pick your programs. You may be more than amazed once you get started. This is even better than picking stocks in the stock market. The leverage is better and you can capitalize so much easier. Because no matter what you pick, each has no way to go, but up! And you are never at risk. You have to appreciate those odds.

Granted there are a few low cost pay programs on this site and for good reason. They pay out more on each level, so you can make bigger pay checks at the start. Which you can easily re-coup the cost on the first level. Remember, you are never under pressure to join any

program If money is a problem, you can always wait until you make enough free money.

The point is, you want to make as much money as you can on your first few levels as this is more achievable for most. However, it may be a little hard for some to appreciate the power of a downline builder, so lets take it a step further.

You already understand how well you can do with a couple programs like above. Well, imagine what you could earn if you had 10 or 20 programs earning you money like that at the same time. Can you even begin imagine what this would be like. What it does is it turns MLM in favor of the little guy. Most would not get rich in one program alone, but when you combine a number of them together for all to follow, more people will earn a nice living just on the start up levels. Those who excel beyond that will benefit more from their hard work.

We already know, the more incomes you add together the more money you will make. And a downline builder is like any other MLM matrix, you are building a downline. Only now you are doing it in many programs and the income factor changes. Instead of being paid a few dollars on each level in one program. You will be earning a few dollars on many programs depending only on what you decide to do. And in most cases your referrals will follow you almost for sure, because they know it is just as profitable for them.

Now you already know what you can earn from one program when you refer just 5 friends. like in the table below. But do you have any idea what you can earn when you are involved in multiple programs. No idea right?

Level	Friends	Monthly Income	Total Monthly Income
1	5	\$2.25	\$2.25
2	25	\$11.25	\$13.50
3	125	\$56.25	\$69.25
4	625	\$281.25	\$351.00

Okay this covers one free program, but the real money is in multiple income streams.

Now we know it would be almost impossible to calculate the total income on say 10 or 20 programs, because of the payment changes in each program. Especially, if pay programs were included. However, if you take just one free program and multiplied it by a number of programs you want to join. This would give you a ruff idea of the kind of money you can make.

So we decided to use the first program above as a very conservative figure and example, because many programs are much higher paying on each level. Then, we decided to use only 4 levels because this is a much more realistic number of levels for everyone to achieve.

Now if we use the above scenario (5 referrals and 4 levels) and you were to join 10 programs all paying the same. This is what you could expect as you fill each level in a 4 level system just with free programs.

Level	Friends	Monthly Income	Total Monthly Income
1	5	\$22.50	\$ 22.50
2	25	\$225.00	\$247.50
3	125	\$2250.00	\$2497.50
4	625	\$22500.00	\$24997.50

See how fast your income can grow with the same 5 friends and levels with multiple income streams... and look how many total friends it took. I'm sure you will never see income like this from any other free system with such a small organization.

Now that's just with 5 referrals, 10 programs and 4 levels. Could you even begin to imagine what you could earn if you referred 10, 20 or more people. Not to mention if you joined more programs or were to fill more levels. After all, a downline of 625 is not a very big number in network marketing, not when you have so many people working toward the same goal!

And you know what? There is no break even point for anyone because this is all done with free money and traffic. Everything you make is 100% profit. This is how you get more profit from your traffic. Your income could easily jump through the roof, if some of these were pay programs or you referred some very ambitious people..

It should be pretty clear by now all the benefits and advantages to this system and downline builder. If not, then you should try reading it again until you do. Because you don't want to miss out on one of the easiest, most profitable ways to make money anywhere.

Also, you never need to worry about re-branding this e-book again when you join new programs on the site... You can join new programs on the DB site anytime you want. In other words... once you join the free programs here and brand this e-book... you can begin passing out your free e-book to friends right away... and go back later and join the programs on the site any time you want.

If you plan to promote the downline builder site directly, then you should list all your ID;s on this site too. Otherwise, you won't receive credit for your referrals when people sign up from your site referral link.

Once you have your affiliate ID's entered both here and on the downline builder site... Your referrals will follow you in all programs when they login to their own DB account. You and your referrals can join all the additional programs you want right from the DB site and will never affect this e-book one bit. And anyone that joins from the DB site can access a copy of this Free Money e-Book right from their back office. However, they will need to join all the same programs under you in order to download their copy.

So you see, this free system goes far beyond any other. It's a whole business with a base of operation. And when you understand the advantages it's easy to see you can make a lot of easy money for a few minutes of your time each day! What do you think will happen when others see this? Yup! your friends are gonna love you and want some too... and that just makes everyone's job that much easier!

In a short time and with a little patience, you and all your friends can be earning a lot more realistic income than most programs around and with much less effort... Not only that... You will be earning so much more money in the early stages when you need it most... because this is where most people struggle most in MLM marketing!

And "God Forbid" if a program ever failed, like we know they can, (even the biggest are not exempt) as we have seen in the current financial crises. But when you're involved in multiple programs it will never be a real issue... because you can never lose all your income.

This is just a smarter way to work and gives more insurance against failure! Because if you are doing it any other way, you only leave yourself open to failure!

It all comes down to leverage!.We know the rich use it well in all their investments. But for the little guy struggling to get by... what can he or she do to leverage nothing! Well, now you can... because we just showed you the way... Even those who avoided network marking in the past will want to get on board for this

This is why networking is the perfect example of leverage, where even the little guy can capitalize without an idea or a huge investment of their own and still succeed.

Even billionaire Donald Trump recognizes the power of network marketing. You may have seen the ads for his new online venture! The new venture involves a personal fitness and nutrition company. Have you ever seen the complicated matrix plans these network opps offer? Right, you need a lawyer and CPA to guide you... and still most will never make money. Because whenever a single program becomes saturated the people on the lowest levels drop out for lack of making money!.

We believe the Free Money e-Book and downline builder offers a much smarter leverage system for the little guy... by bringing all the free and low cost sources together in one place... in one downline... so that you and everyone can share and capitalize on them together.

When you consider the economy today and the millions that need a free system like this. You will be in a great position to profit because it's only a matter of time before millions will see and want this... Even if it's only to help with a few bills, add to their current income... or even build wealth, since this involves so little time or risk

No matter how you look at it, this is the best little opportunity around that won't put you in debt... try to sell you things you don't need or want... but can convert your existing traffic into bigger pay days and soar your income out of control for a few minutes work each day. This could even go down as the little guys best secret weapon to financial freedom!

Unleashing The Entrepreneurial Free Spirit

So many have done it with just one great idea... Bill Gates made his fortune with a simple digital solution called MS-DOS and with the help of IBM and a network of affiliates/distributors he was able to make a fortune for him and his associates... and is now one of the richest men in the world. Others like Dell did it by building a more reasonably priced computer for the home and business. U-Haul did it by providing the first network of moving van/trailer rentals so people could save by moving them self. H&R Block did it by providing a network of reliable tax preparer offices all across the country. While Walmart and Home Depot did it by creating a network of stores to offer the lowest pricing to the consumer. Thomas Edison did it with the electric light which we know opened the door for so many new great ideas. The list goes on and on.

The time has come for a real free system that can help the many millions out-of-work... work-at-home... and retired... take advantage of free and low cost opportunity without all the cons and scams... but instead a system that can level the playing field for everyone... that is easy and totally risk free to do... where anyone can earn real free money simply by leveraging their time and opportunities with others.

Many will find this free e-book as a real blessing in these struggling times, even if only to make extra money... While others will want to take full advantage of the system so they can begin to enjoy life on their terms.

"The One Thing That Separates The Successful From The Unsuccessful Is The Way They Think"

Nothing is impossible until you have given it your best effort. People do it all the time. and much of the time we do it without thinking. However, when ever we want to think we can't do something... thats when we let it become a reality. If you want to be successful at anything... You need to keep an open mind and not listen to unsuccessful people.

One of the worlds greatest statesmen and WWII heroes, Sir Winston Churchill had this advice for a college graduation class, and "I quote" in his exact tone of voice, "Nev...er Give Up", "Nev...er Give Up", "Nev...er Give Up"!... This was the entire speech... And now history records how he lived by his advice! Because one who gives up easily, may be one step short of succeeding! Theres no reason to give up here... because its not costing you anything but a little time!

This alone, will help you achieve real leverage

Opportunity never waits for anyone it just goes to someone else!
